ederal (USA) law restricts this device to sale by or on the order of a physician. Please refer to our detailed product catalog for a complete listing of models and pricing. To place an order or to request product information call Atrium toll free at 1-800-528-7488.

Flexible Options for Post-Op ATS

Whether for routine ATS or for emergency chest trauma applications, Atrium's ATS Blood Recovery models offer unlimited flexibility for prescribing continuous pump reinfusion or post-event blood retrieval with a 2450 Self-Filling ATS blood bag. Models equipped with in-line connectors allow rapid in-line ATS blood bag attachment when required.

DRY SUCTION CHEST DRAINS

**The most
Advanced
water seal
chest drain
Available.**

Atrium has once again proven itself as a true innovator by fulfilling previously unmet clinical needs in a way that benefits both the clinician and patient. By including pre-packaged sterile water to fill the water seal along with unsurpassed knock-over protection, the Oasis dry suction chest drain offers the ultimate in fast setup and patient safety.

The next generation Oasis combines the safe, dependable vacuum control of its state-of-the-art dry suction regulator with a fully calibrated water seal. Other features include multi-position hangers, latex-free tubing and 24 hour technical support...because emergency questions do not work an 8 hour day.

**PRE-PACKAGED*
WATER**
