

Система рентгенографическая диагностическая цифровая модель Diamond 6A.

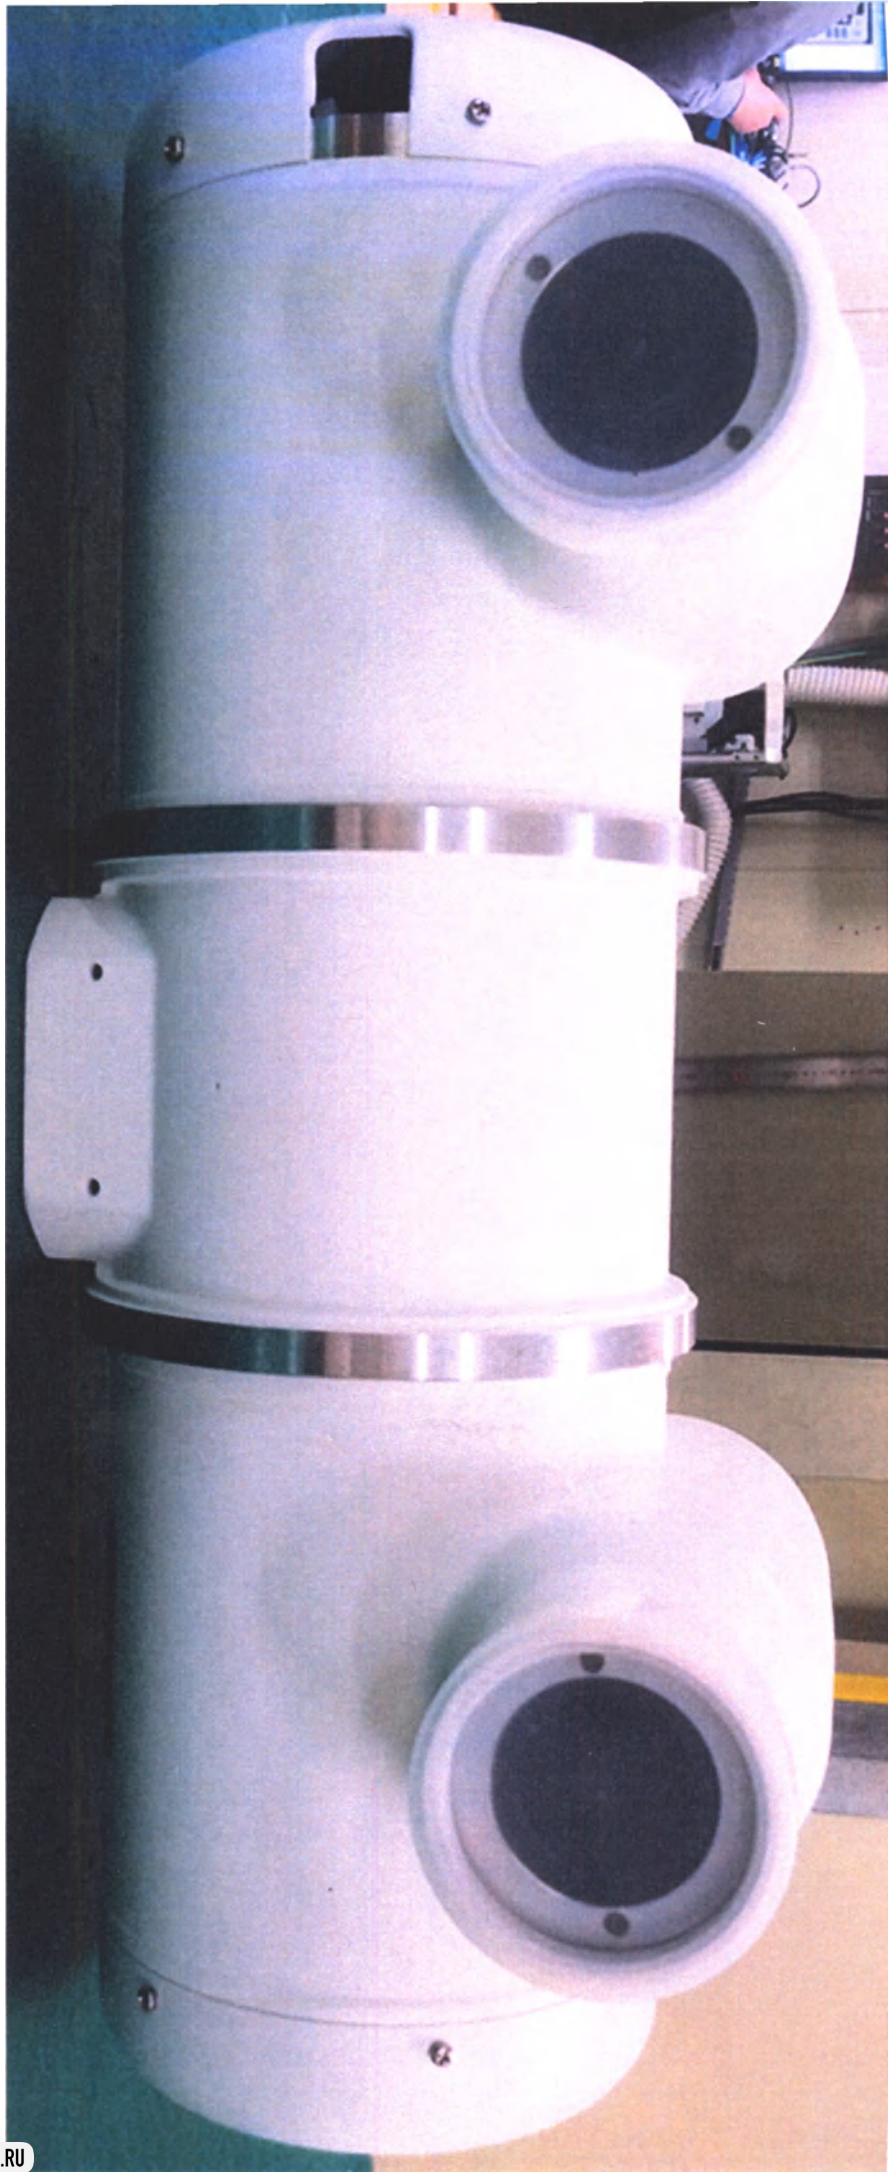

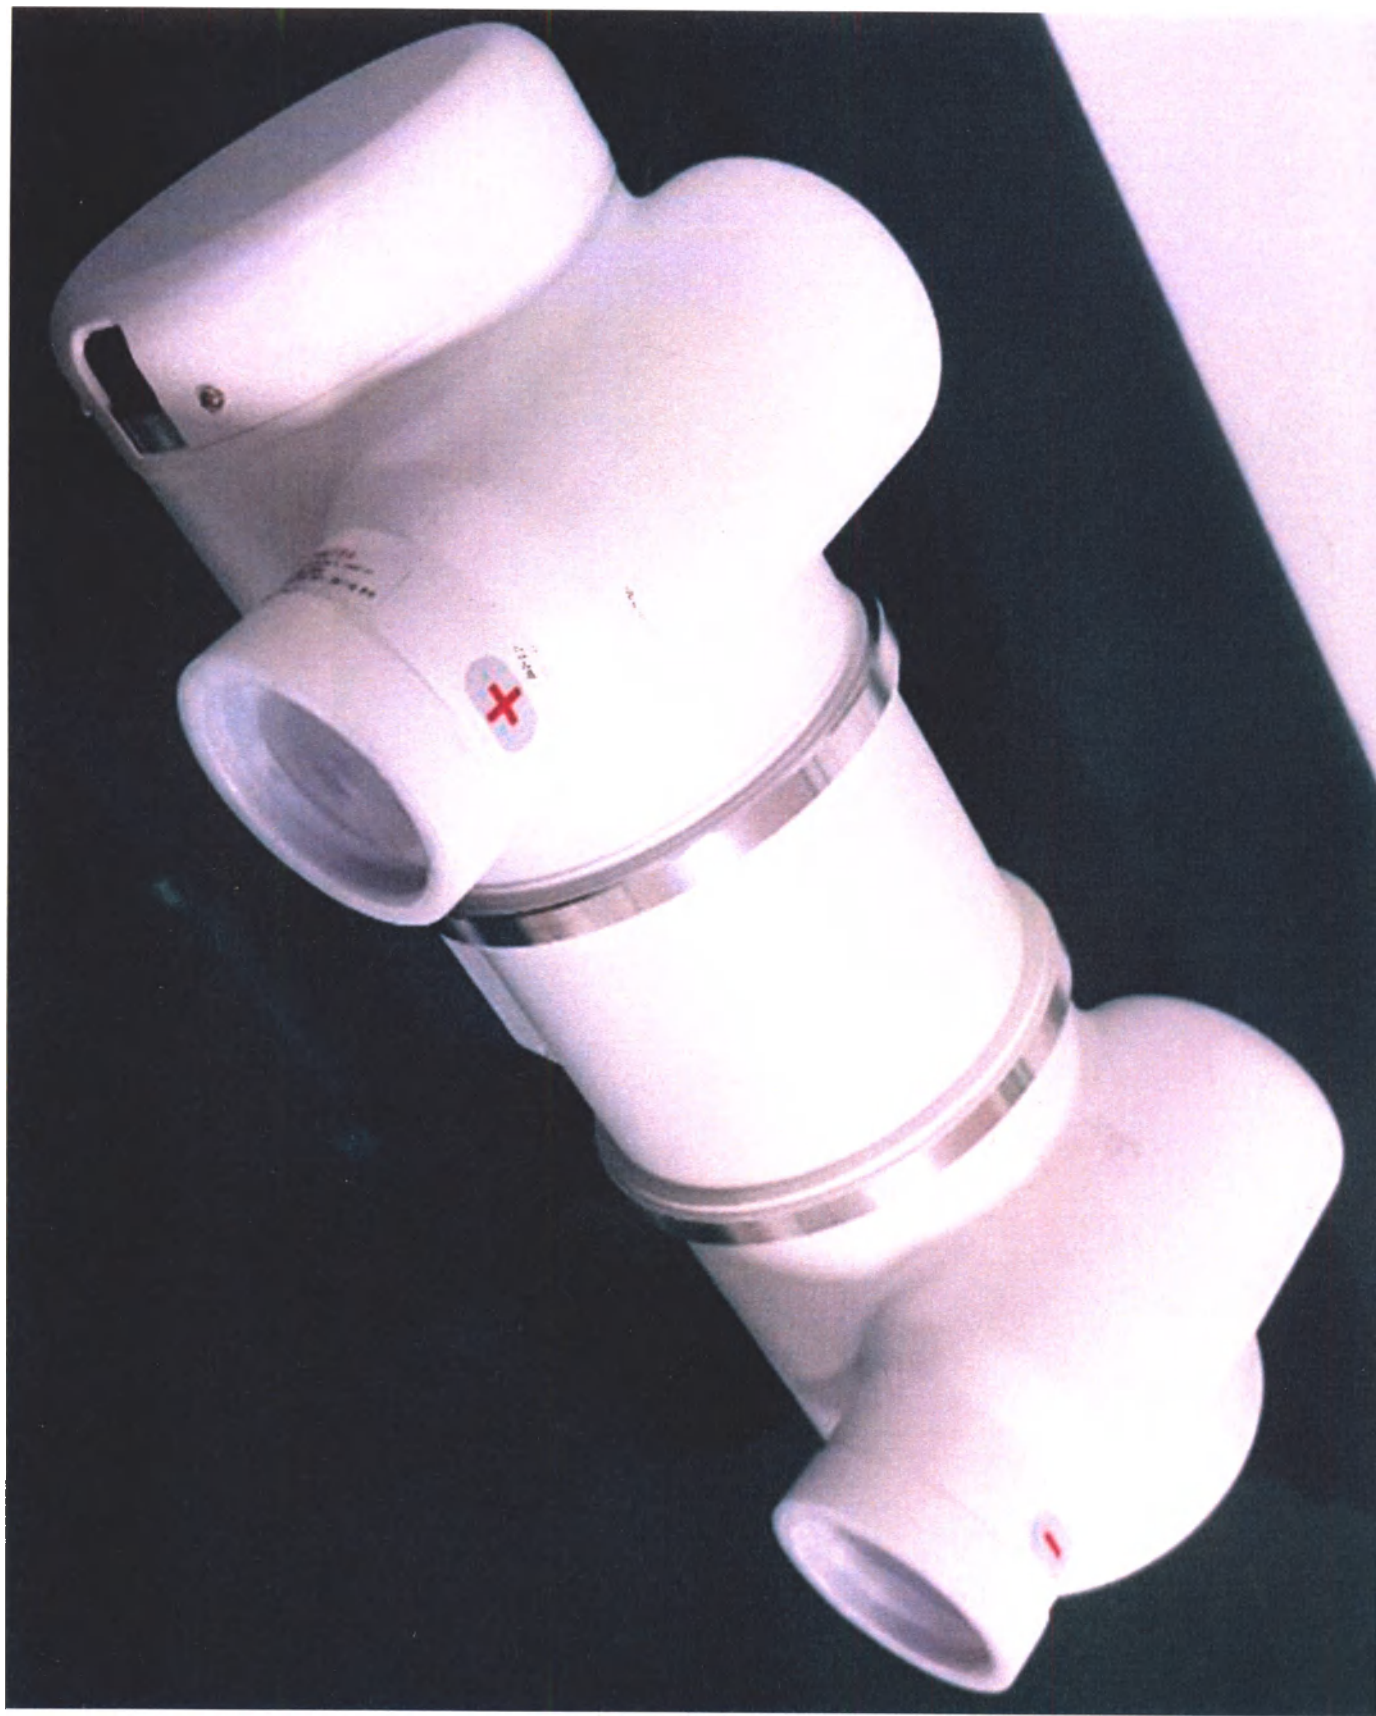

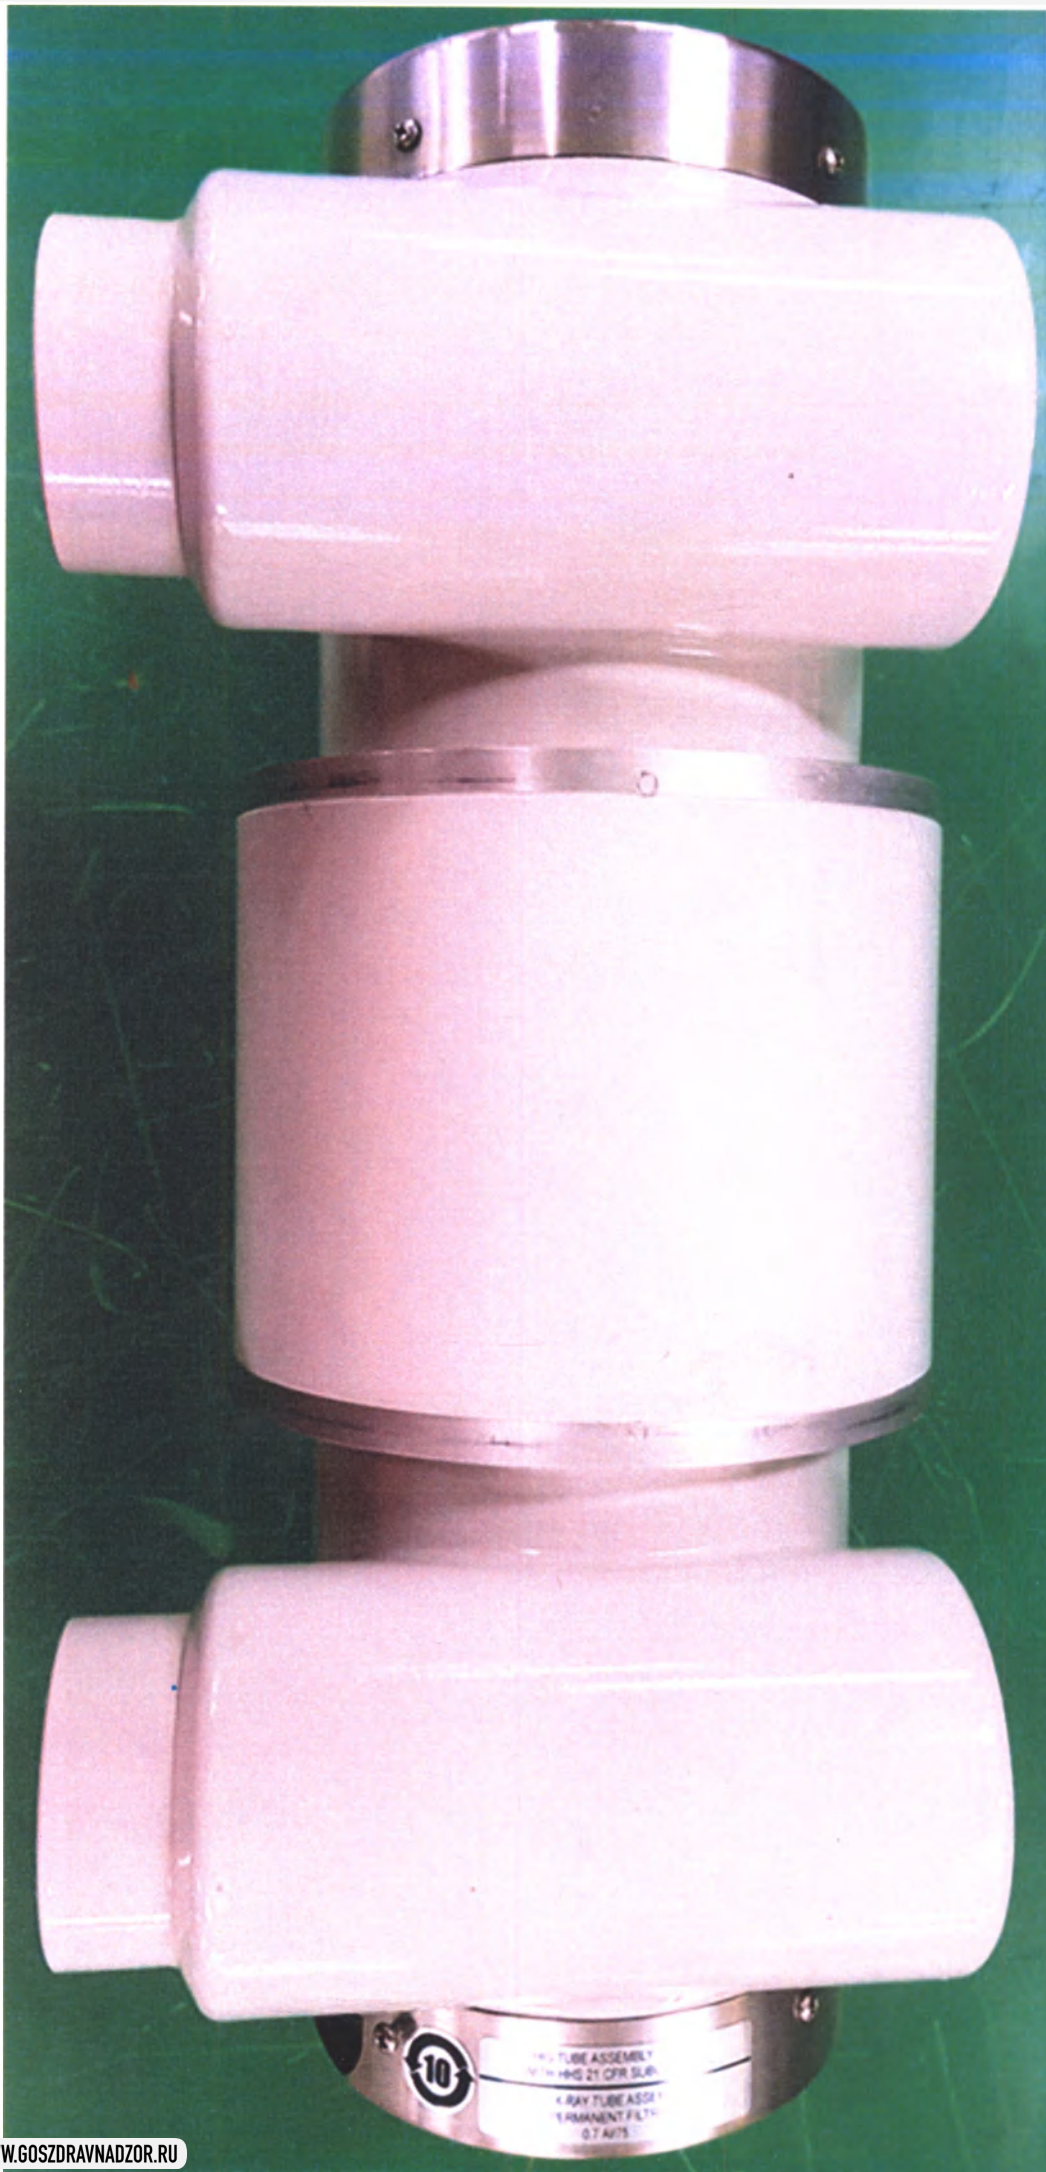

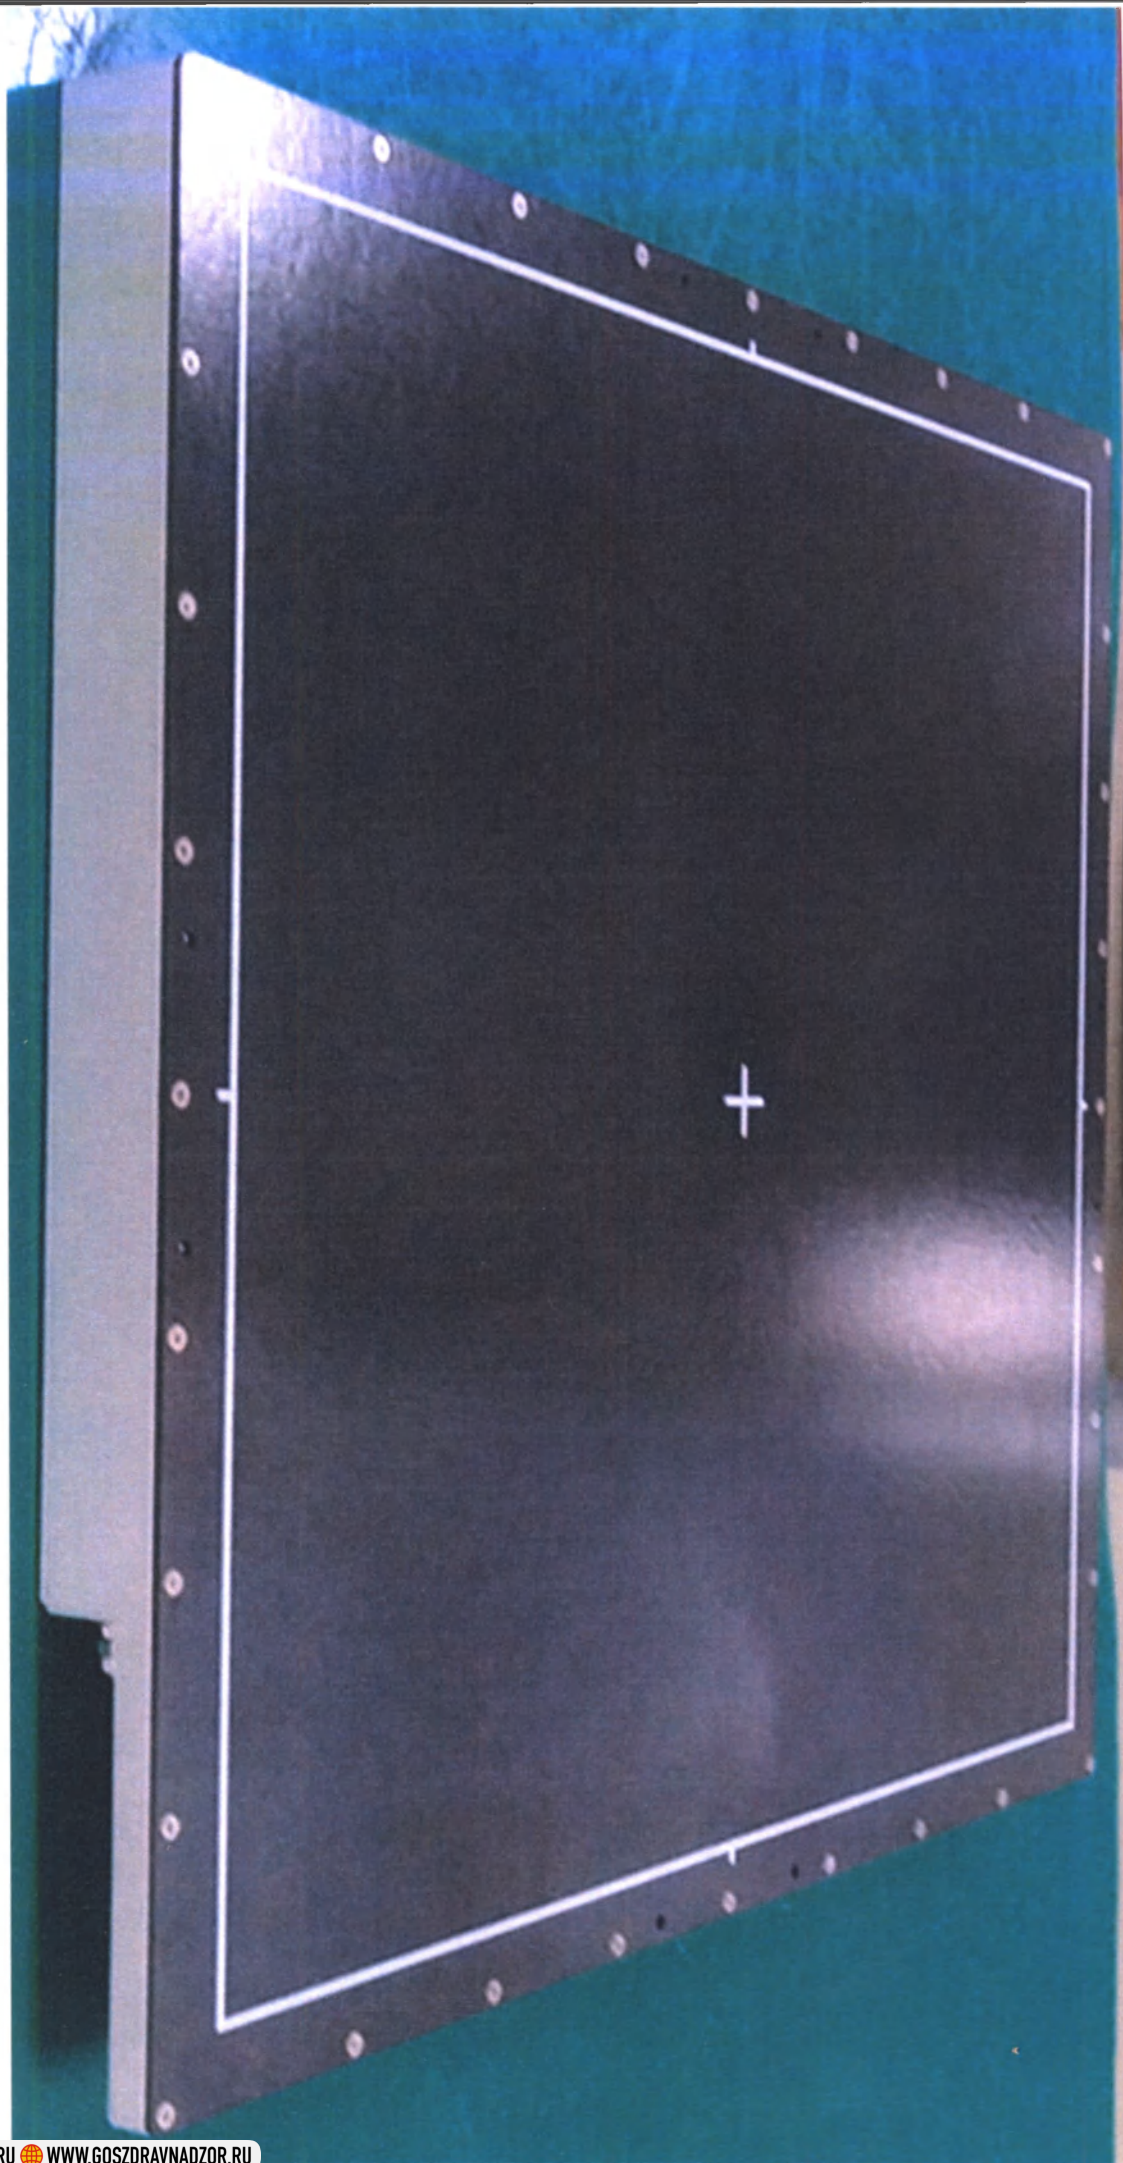

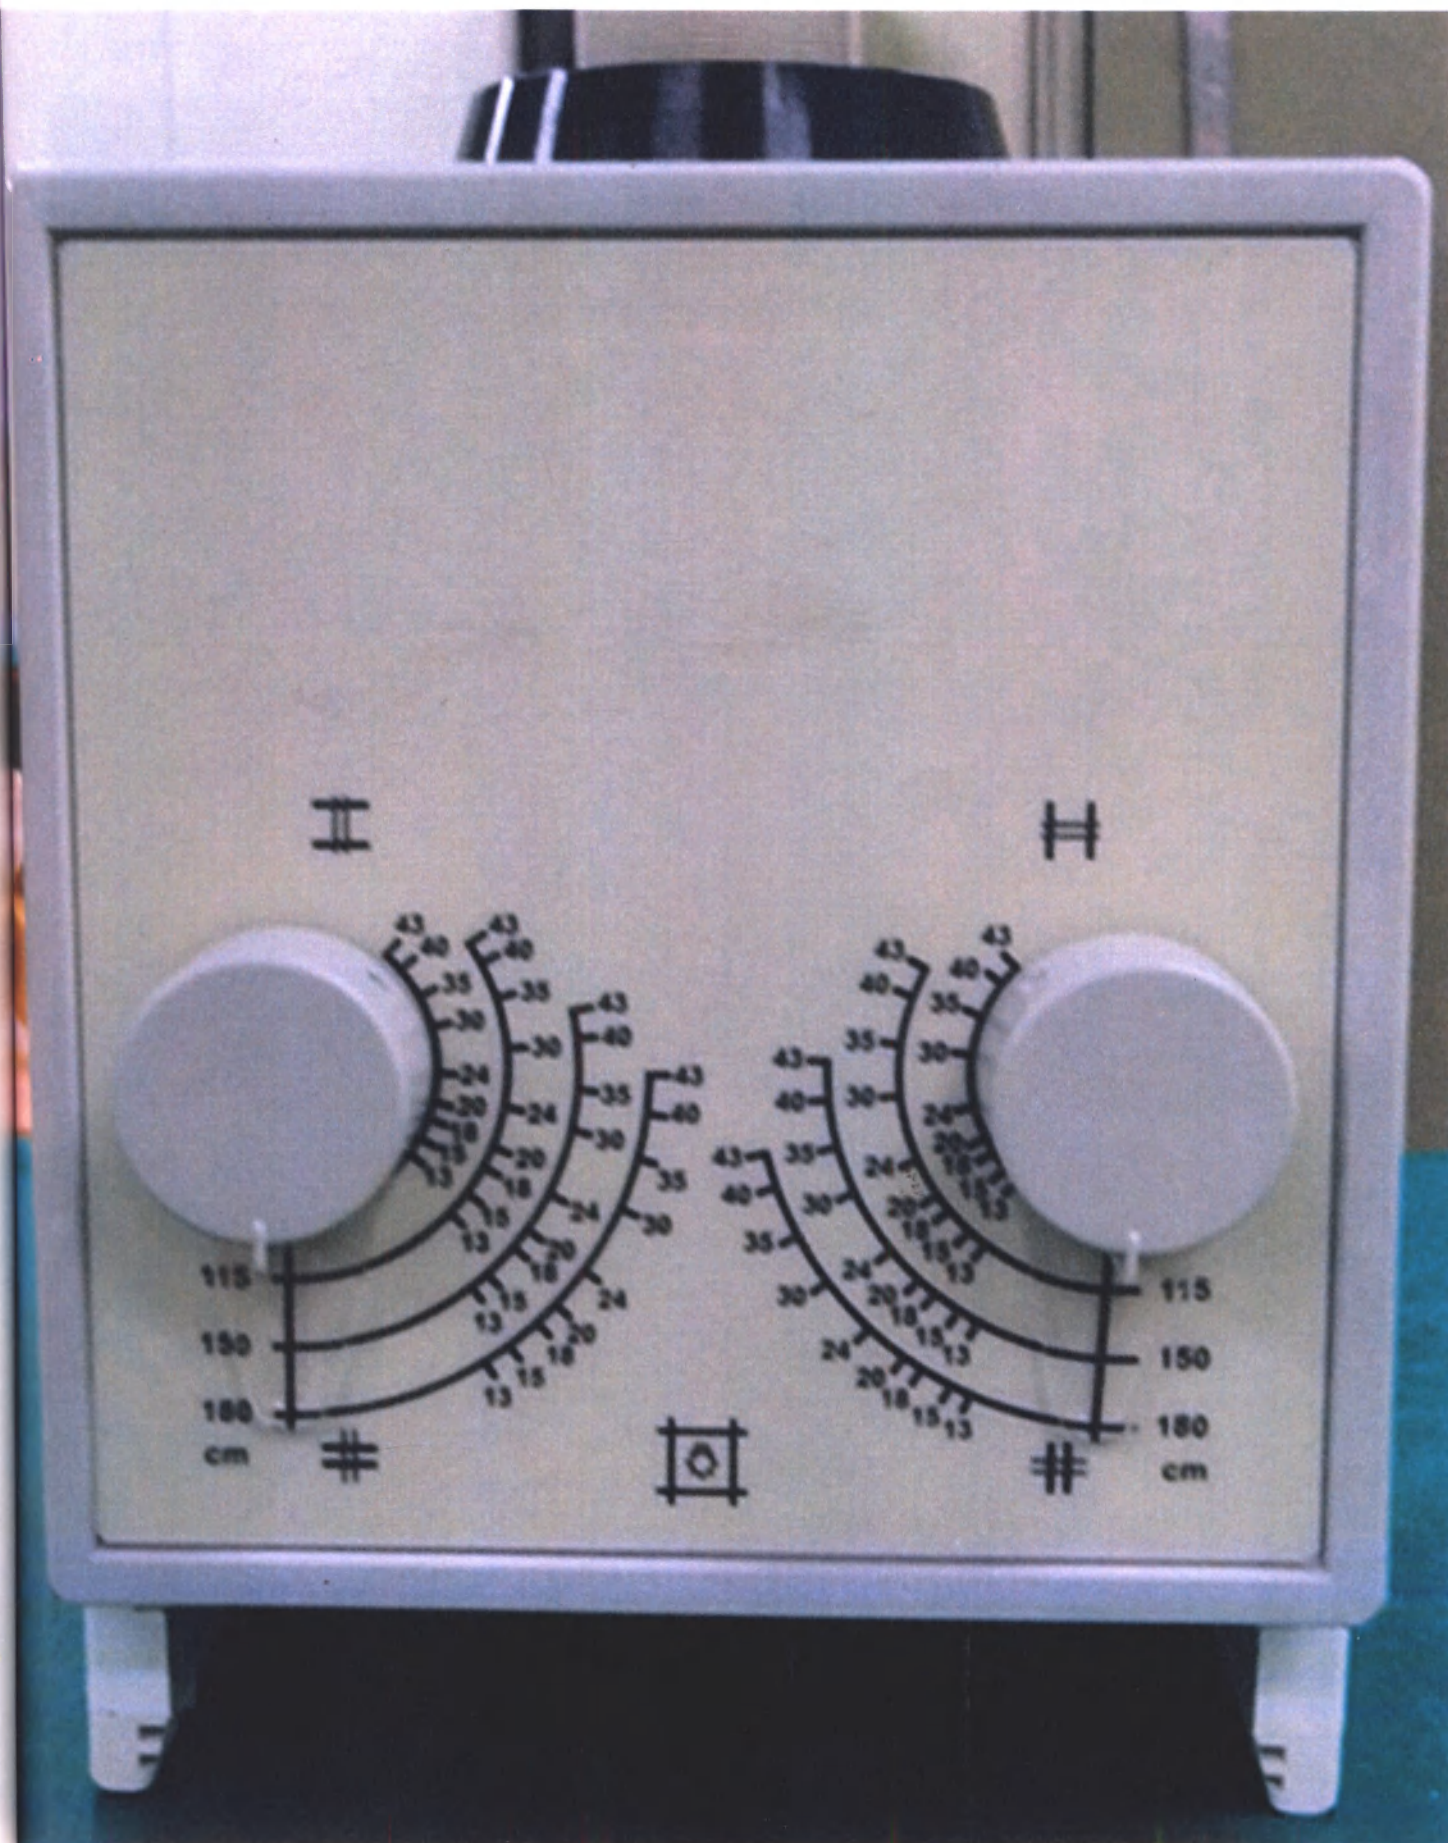

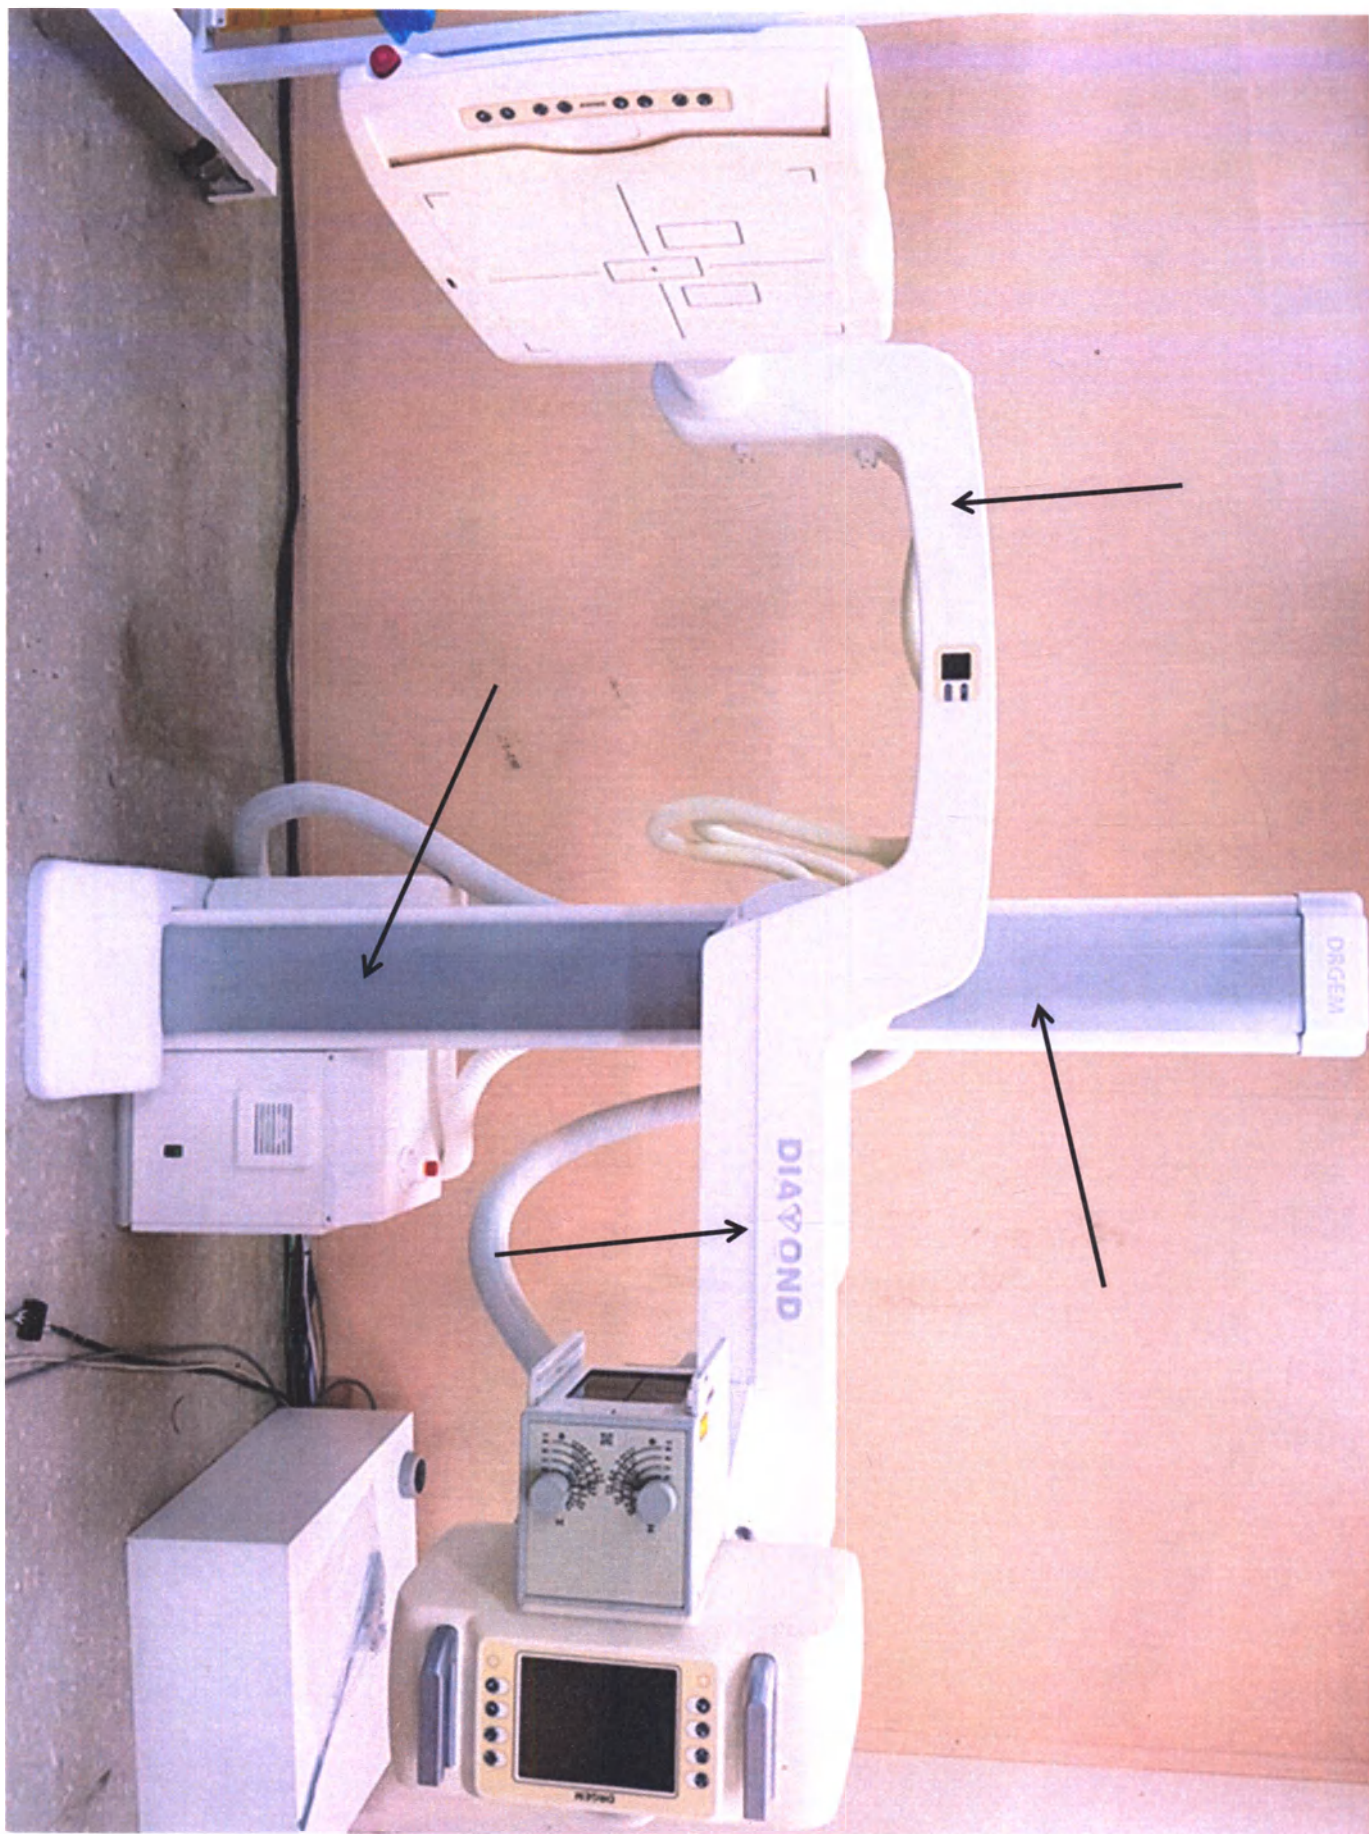

4. Коллиматор Ralco R302MFMLP/A.

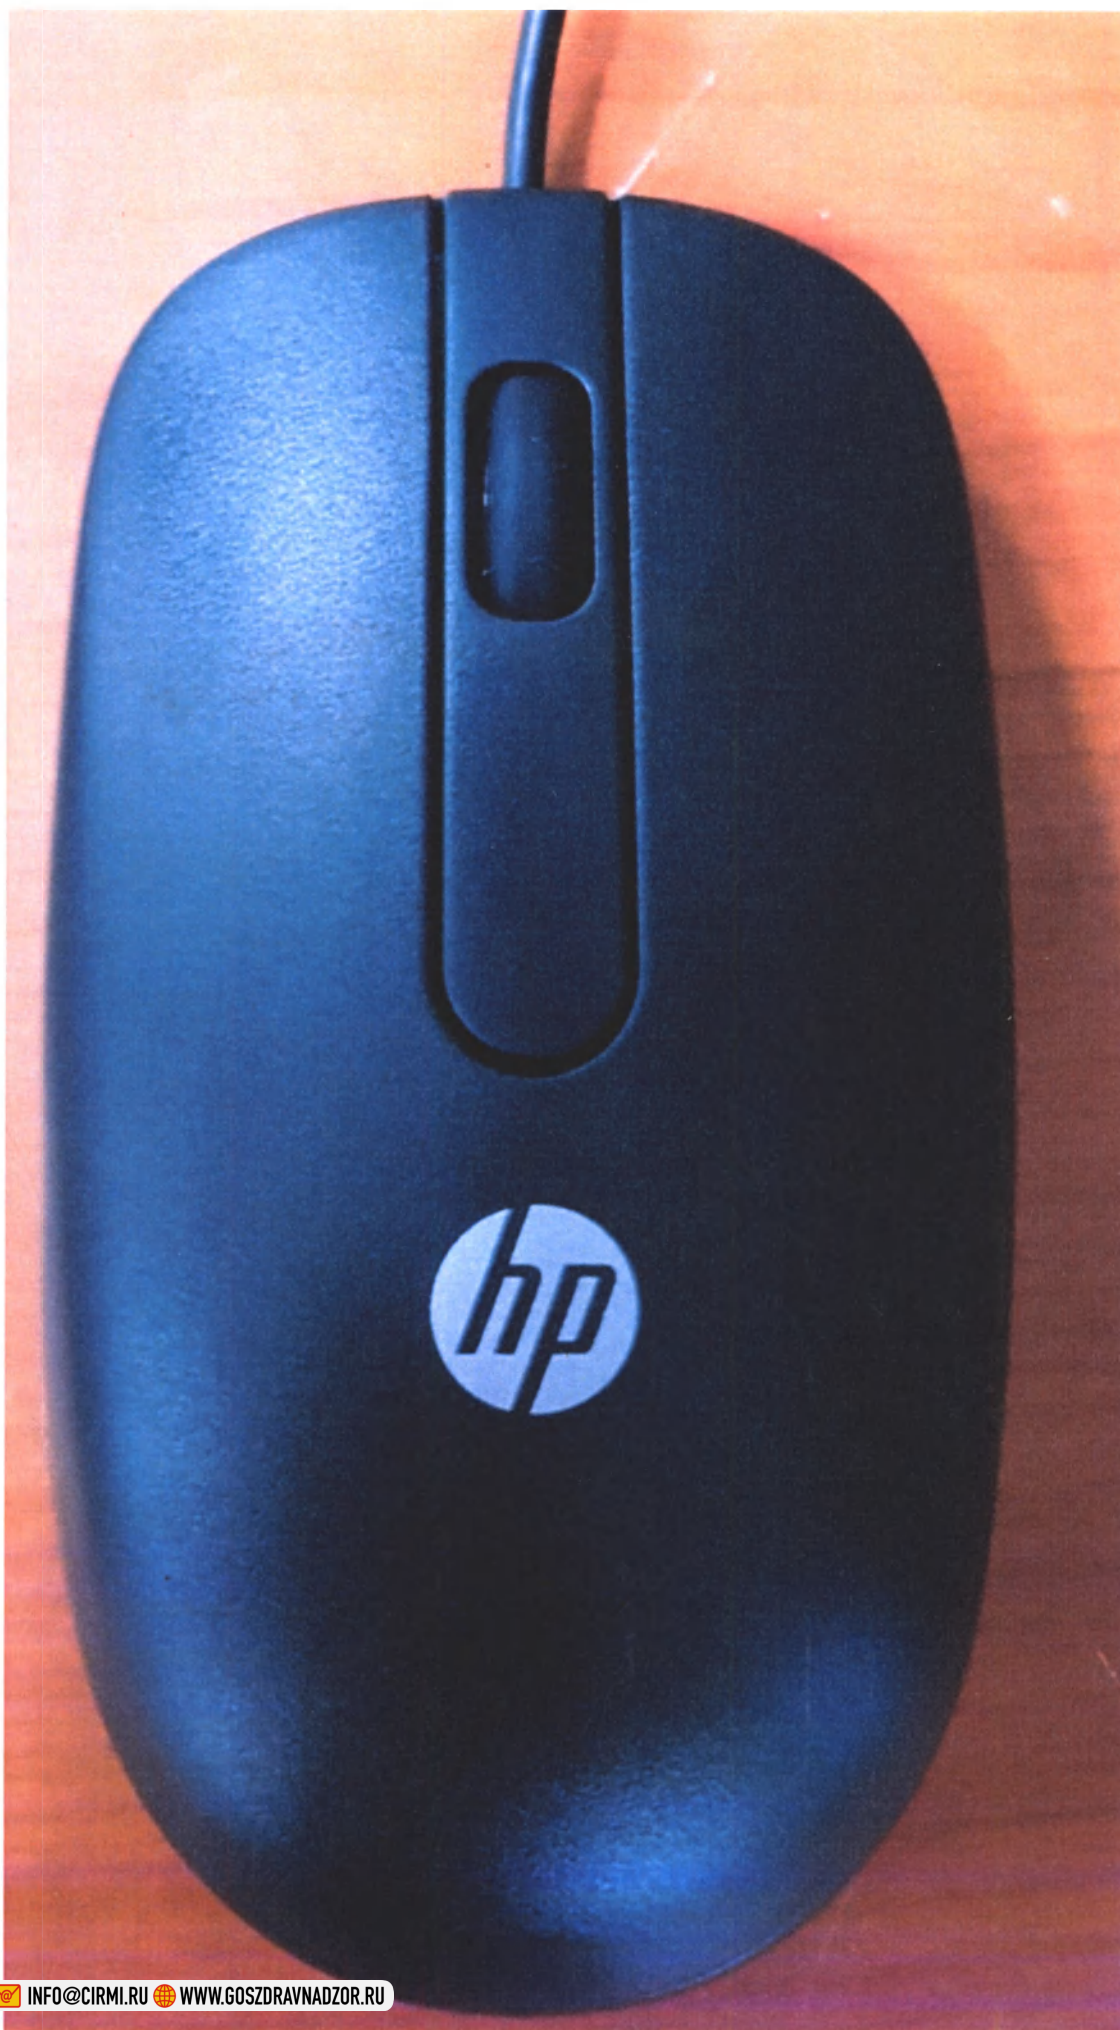

6. Рабочая станция рентгенолаборанта в составе: Системный блок

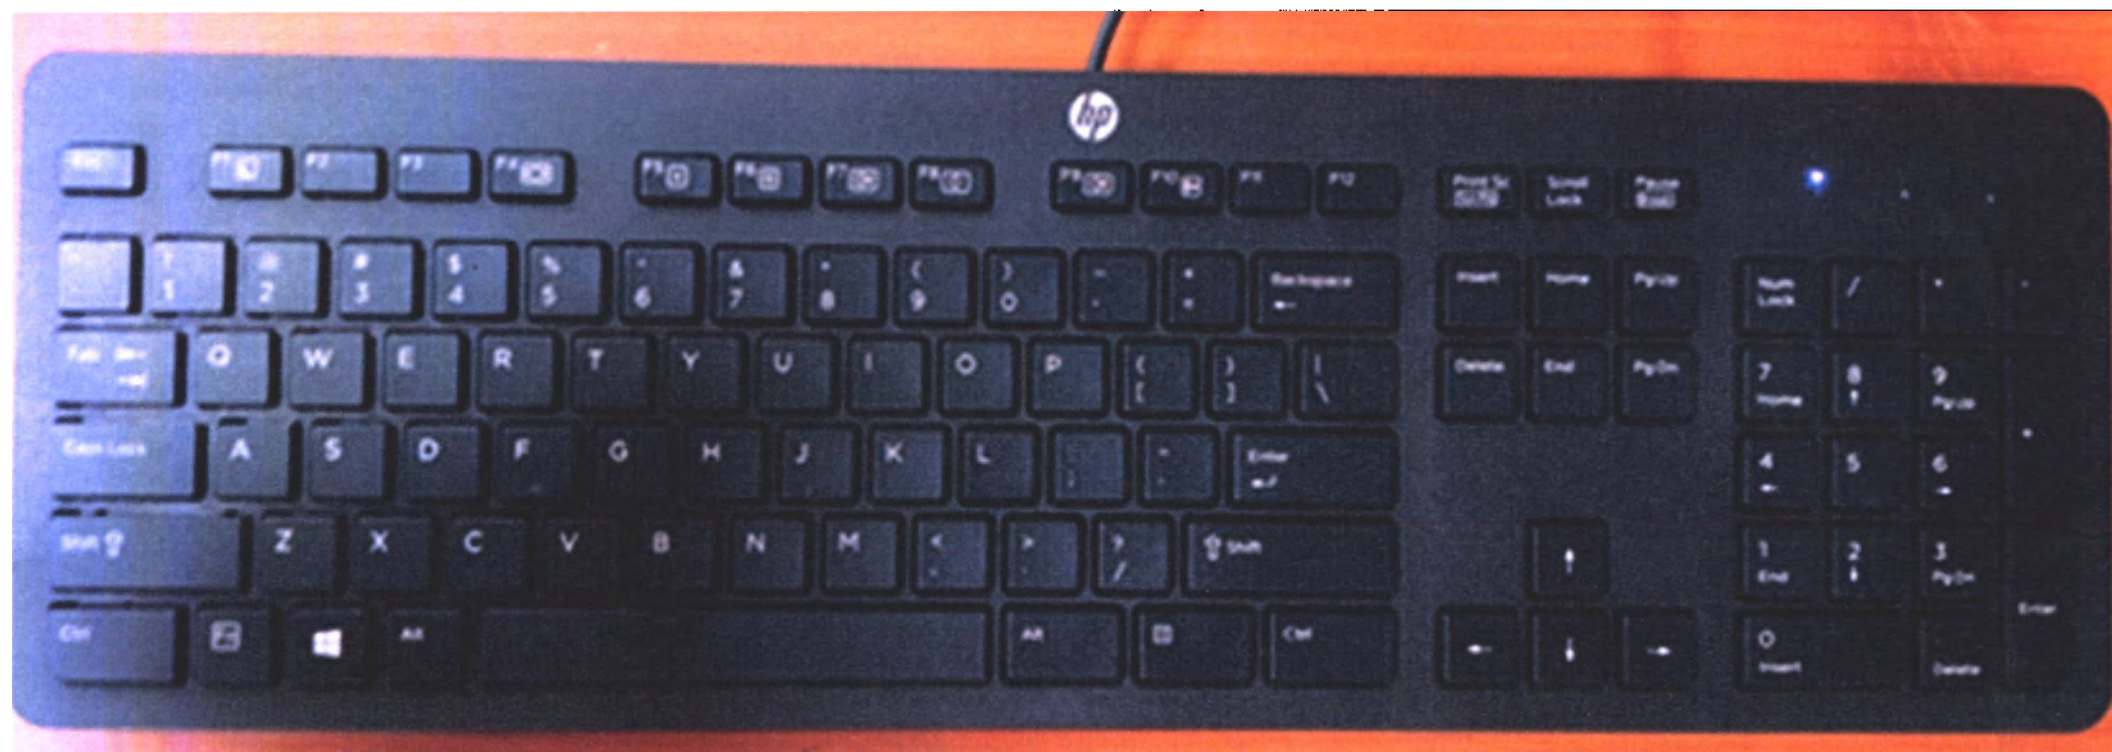

6. Рабочая станция рентгенолаборанта в составе: Ручной манипулятор типа «мышь»

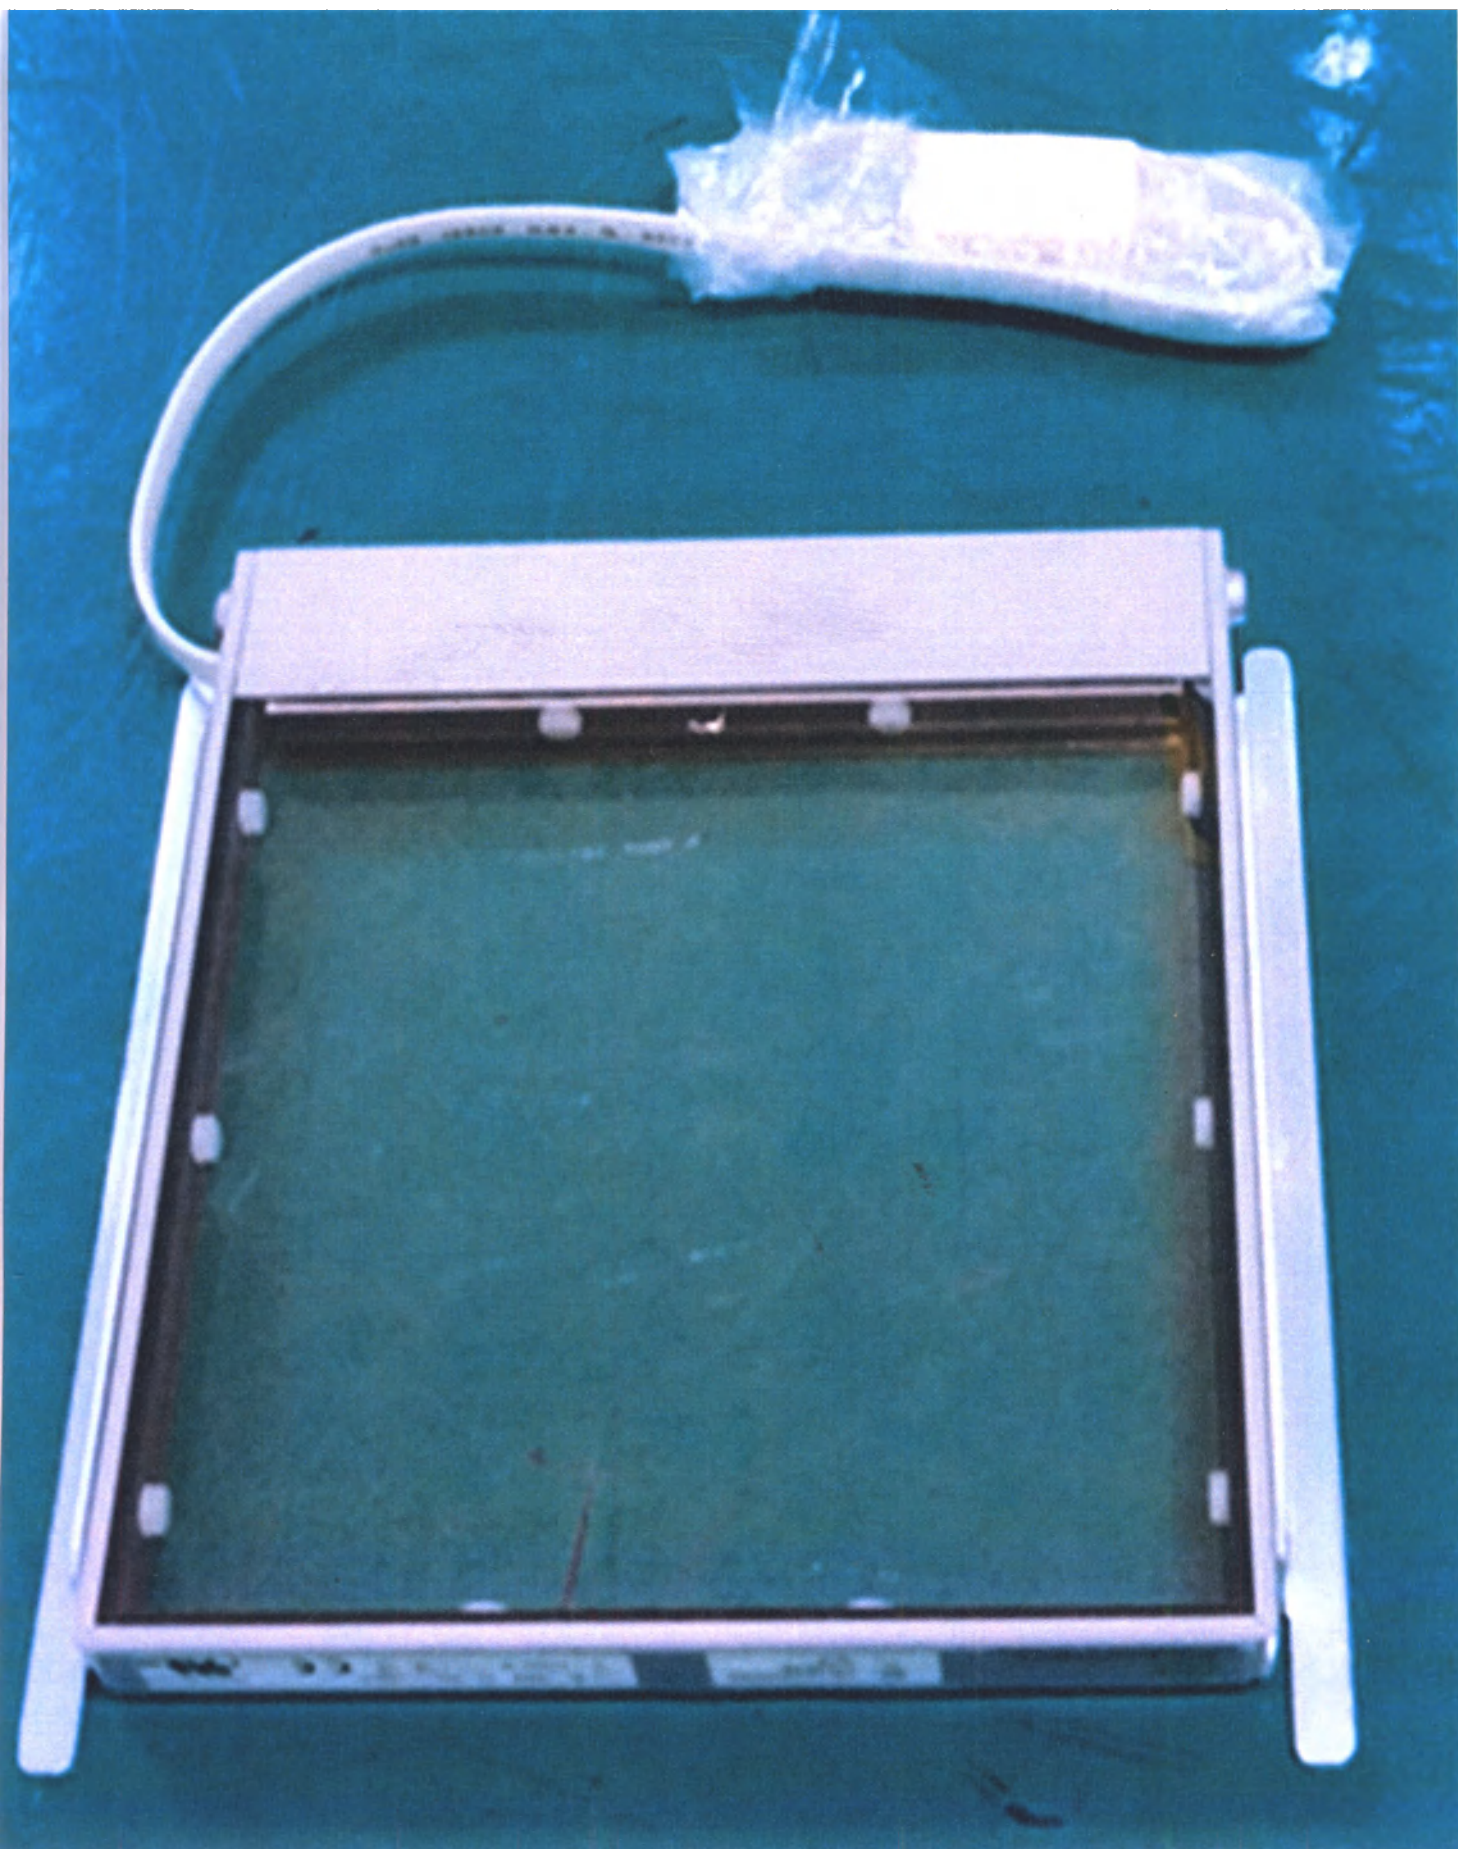

6. Рабочая станция рентгенолаборанта в составе: Клавиатура компьютерная

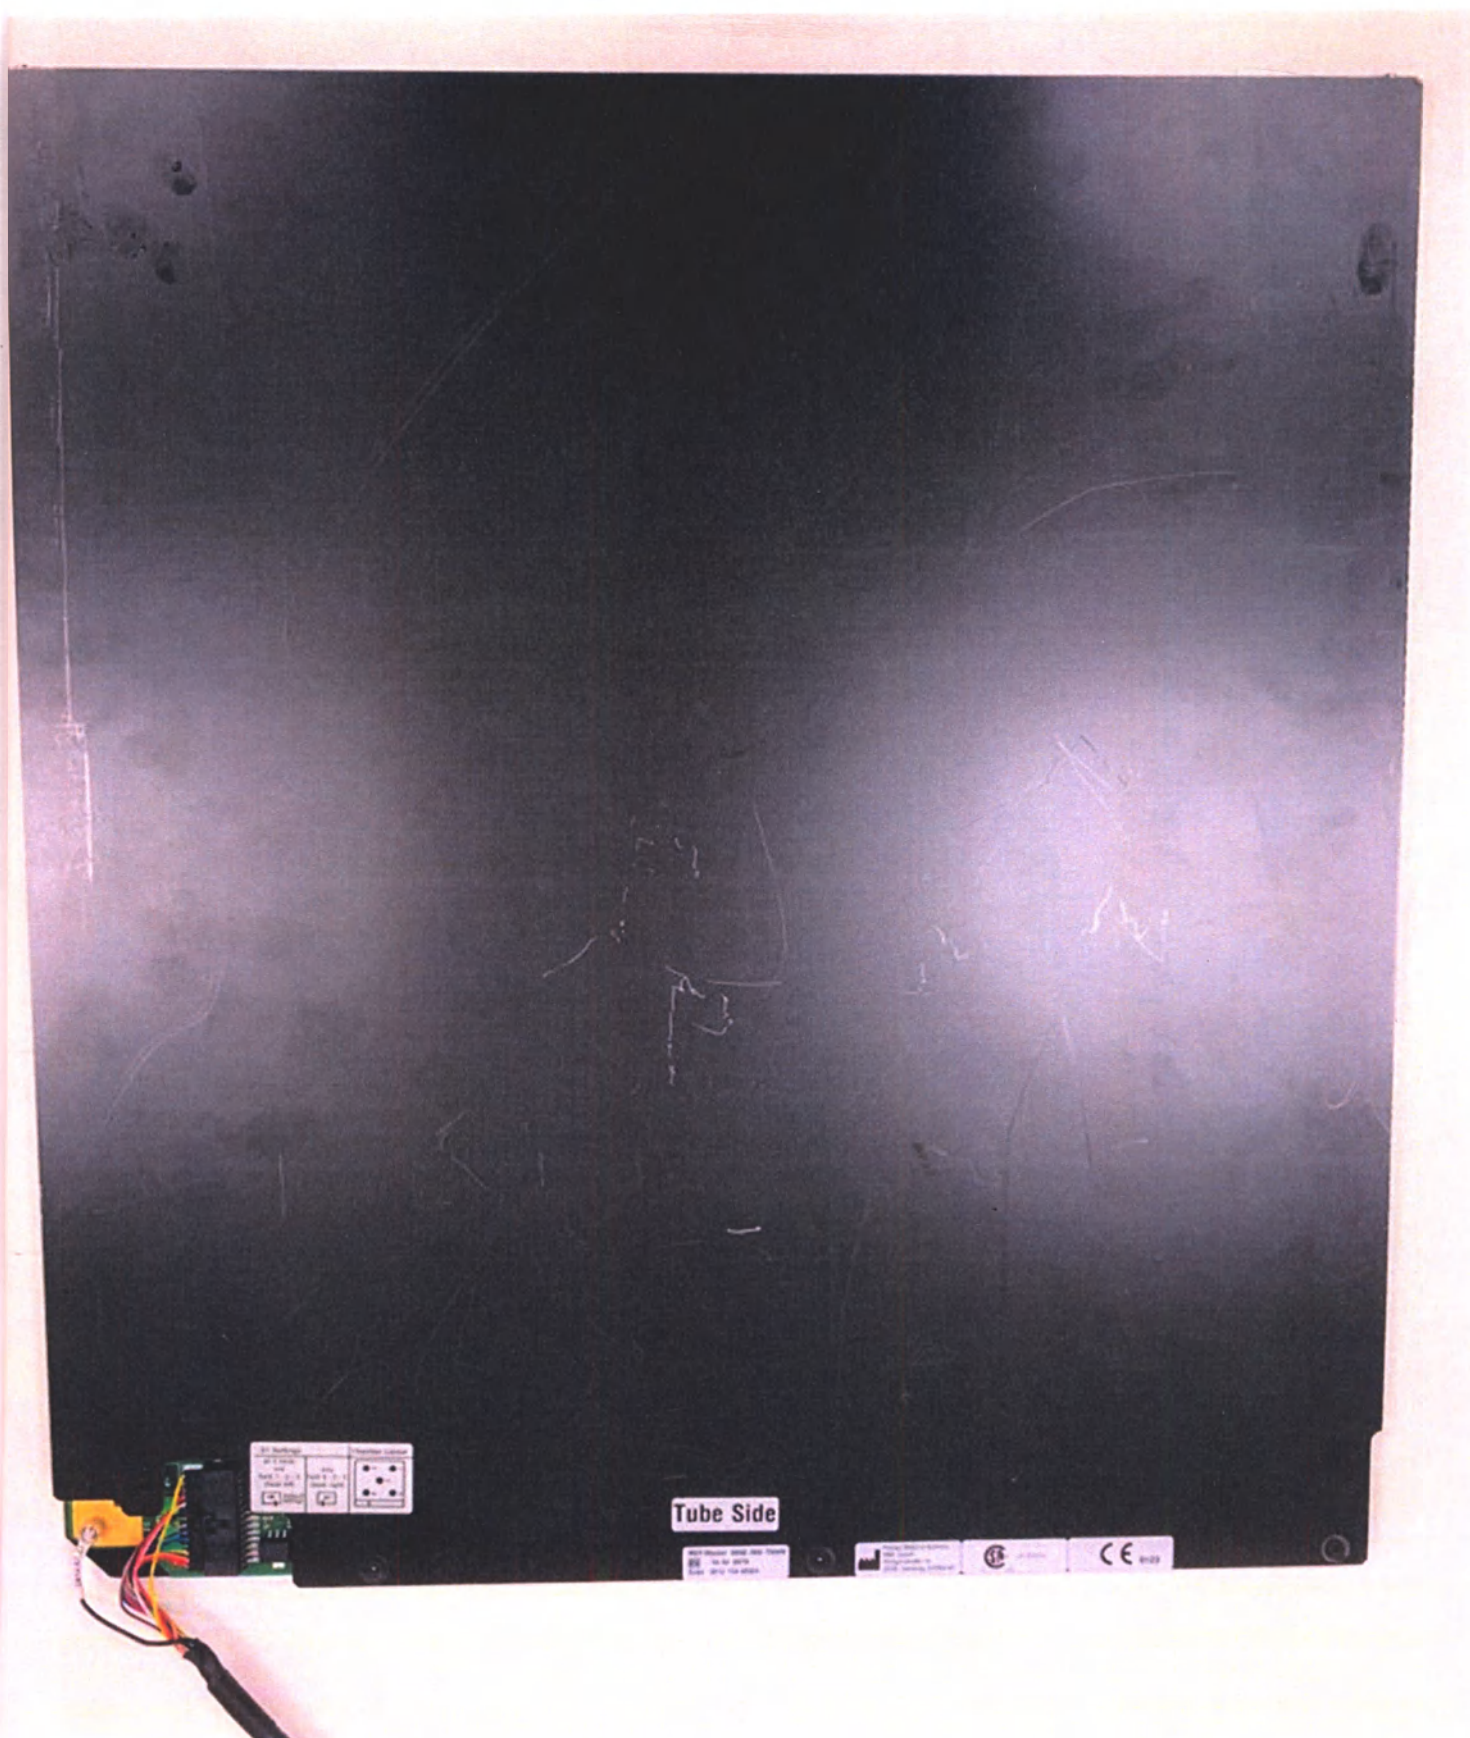

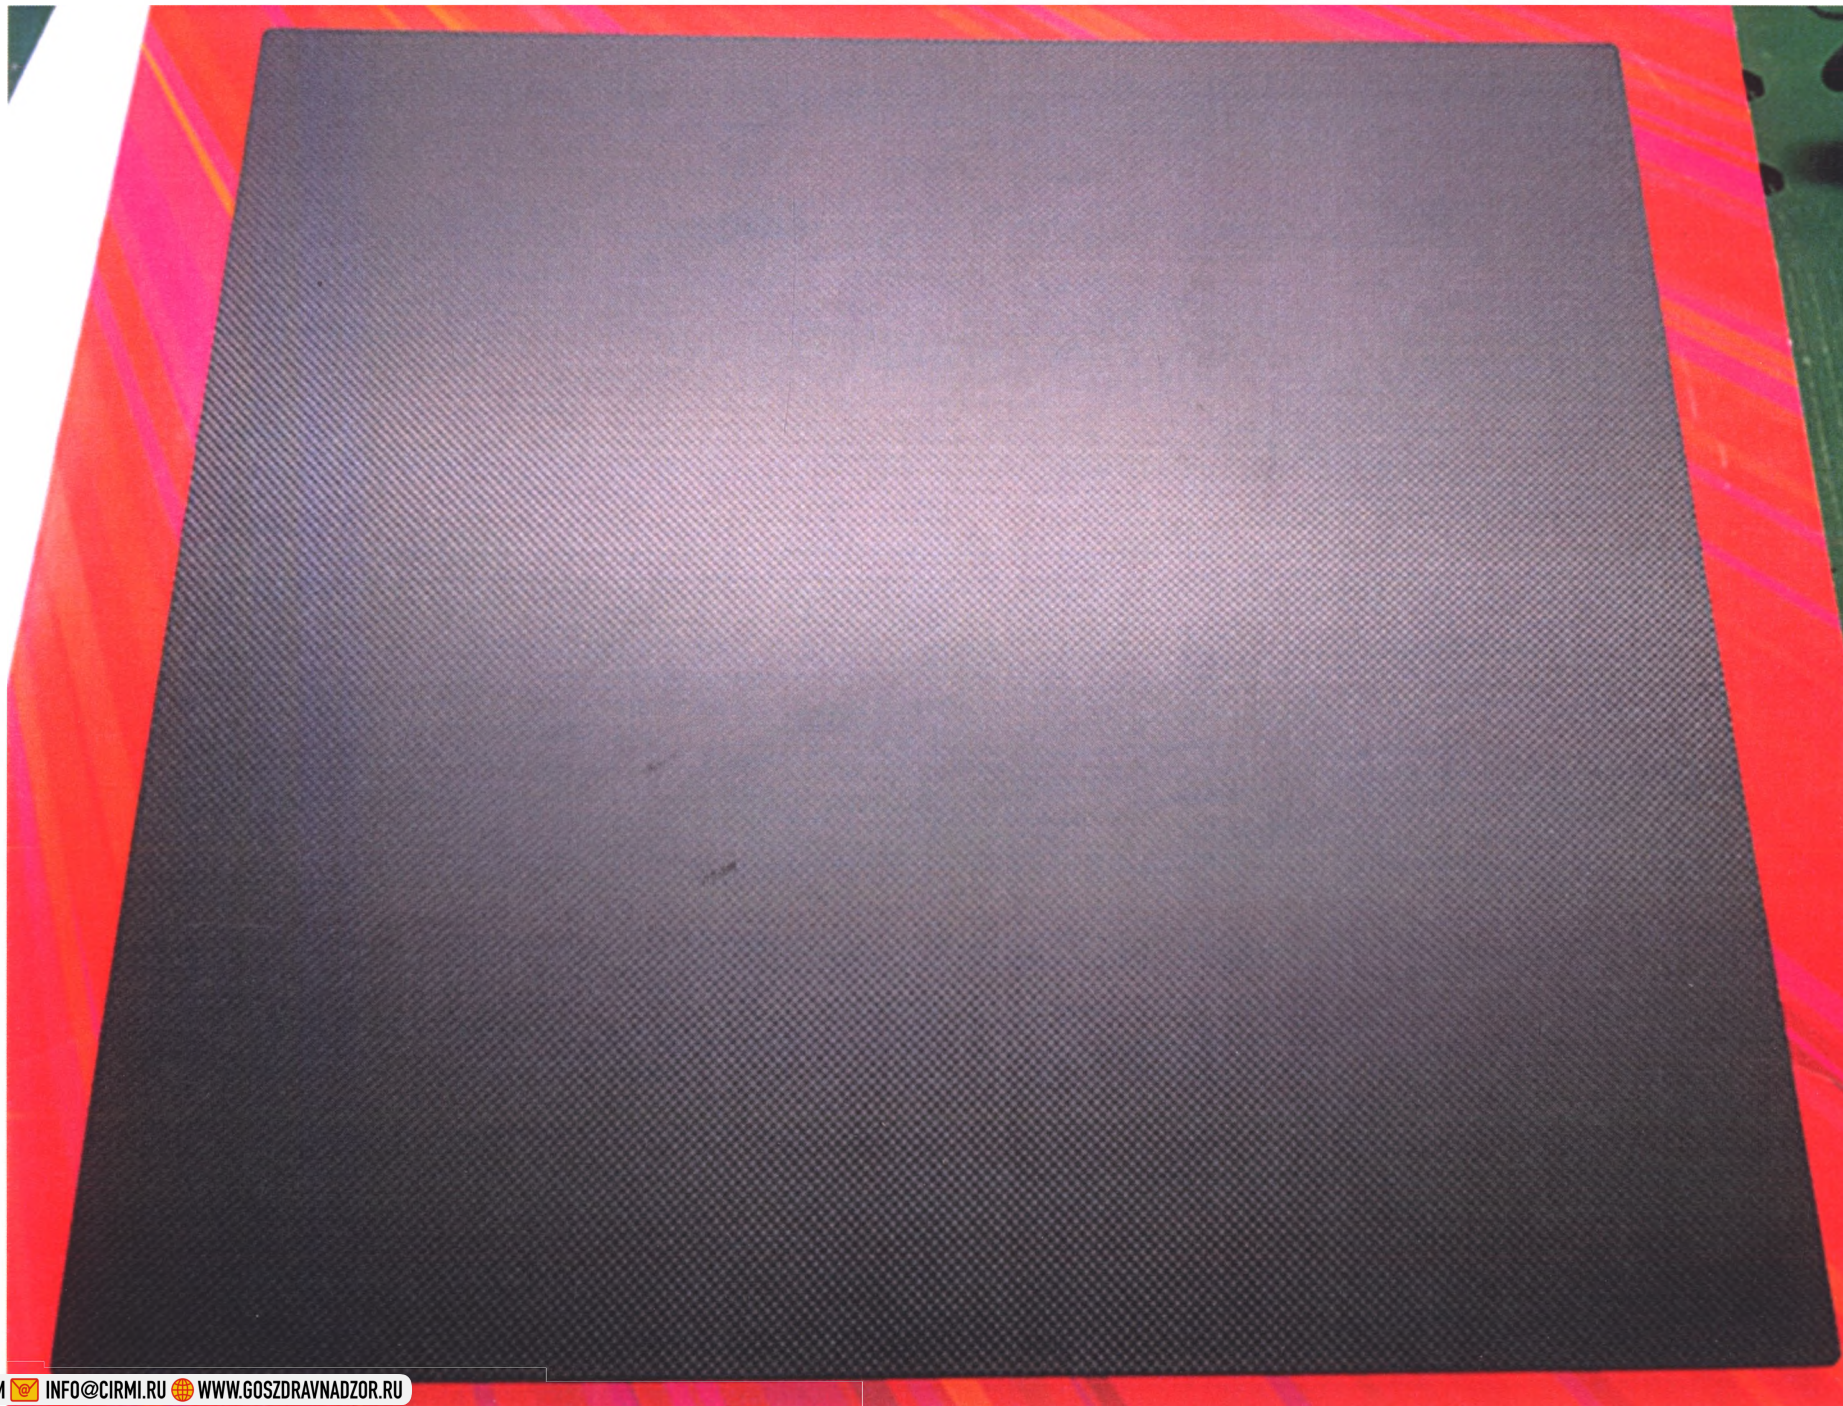

8. Встроенный модуль измерения дозы облучения пациента.

9. Ионизационная камера.

12. Рабочая станция врача рентгенолога (при необходимости).

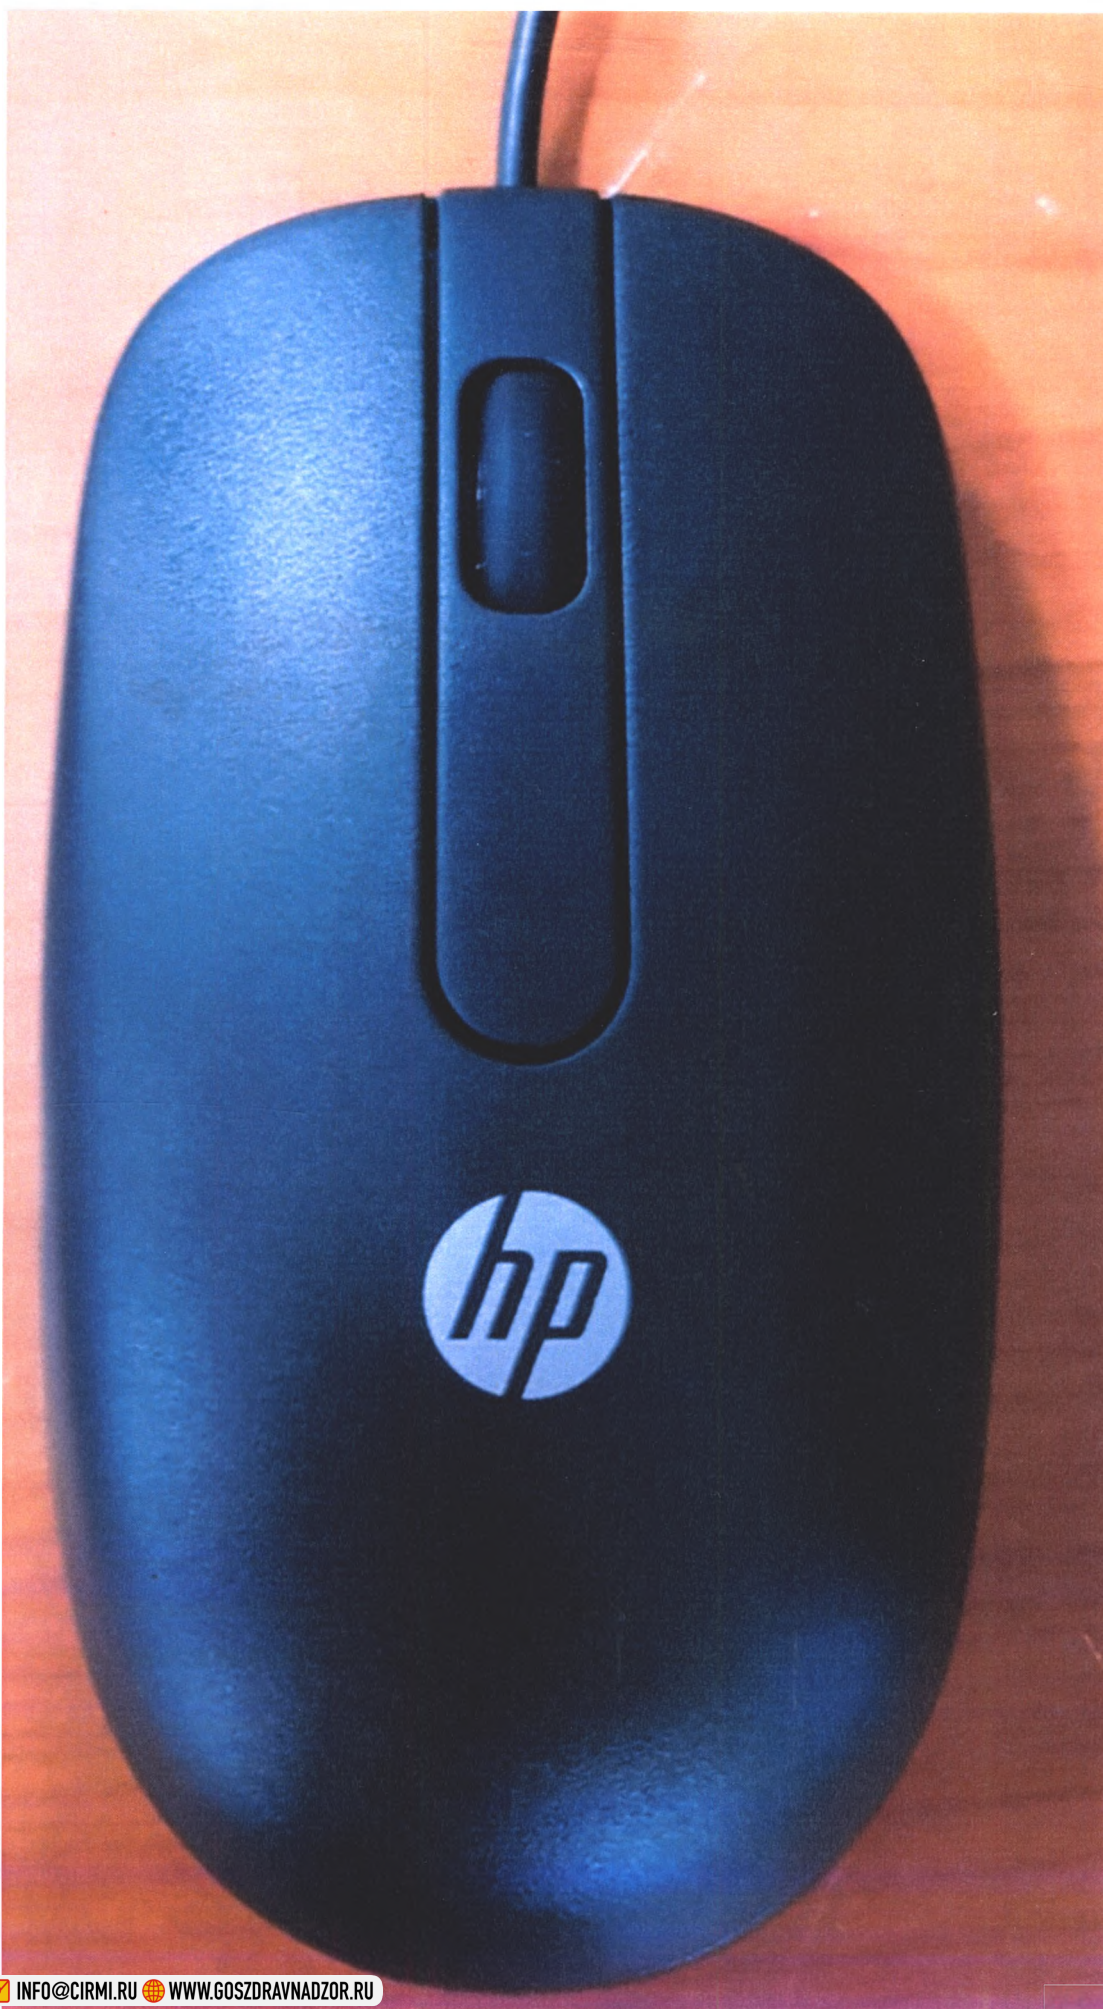

12. Рабочая станция врача рентгенолога (при необходимости) состав: Системный блок

2. Рабочая станция врача рентгенолога (при необходимости) состав: Ручной манипулятор типа «мышь»

13. Программное обеспечение РЭДМАКС (RADMAX) для формирования изображений на рабочей станции рентгенолаборанта.
