

SGTi-flex COVID-19 IgM/IgG

INTENDED USE

SGTi-flex COVID-19 IgM/IgG test is an immunoassay for qualitative detection of IgM or IgG antibodies to COVID-19 in human body fluid samples. The test is suitable for screening people for COVID-19.

SUMMARY AND EXPLANATION

The novel coronavirus SARS-CoV-2 was identified in December 2019 and in January 2020. The World Health Organization (WHO) is currently naming the disease caused by SARS-CoV-2 as COVID-19. Following the WHO's recommendation, no specific name should be used for the disease. However, the disease is a coronavirus infection. The test is intended for use in the laboratory and not for use in the field. The test is not intended for use in the field.

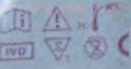

SGTi-flex COVID-19 IgM/IgG

For in-vitro diagnostic use.
Store at 2°-30°C (36°-86°F) sealed.

REF: COVT025E

LOT: COVT20904

Expiry Date: 2021.03.17
