The screenshot displays the CARTEA GERIATRIE MAE software interface, which is used for managing geriatric patients. The interface is divided into several sections:

- Top Bar:** Contains the application name "CARTEA GERIATRIE MAE" and various navigation icons.
- Left Panel:** A sidebar with a tree view showing different modules such as "Patient Summary", "Quick Notes", "Body System View", "Chart Search", "Clinical Research", "Data Normalization", "Discharge Summary", "Health Maintenance", "Medications", "Immunization Schedule", "Screening View and BPO", "Screening/Referral Tracking", "Screening/Referral Management", "Live Patient/Screen Summary", "MAM", "MAM Summary", "Medication Change", "Medication Manager", "Notes", "Observation Events", "Patient Information", "Transfer Screen Status Summary", and "Visit Summary".
- Main Content Area:**
 - Header:** Displays patient information including "CARTEA GERIATRIE MAE", "Patient ID: 1000000000", "Age: 87 years", "Gender: Male", and "Date of Birth: 1912-01-01".
 - Summary Section:** A central area with multiple tabs and data fields. It includes sections for "Vital Signs", "Lab Results", "Immunizations", "Medications", "Discharge Summary", "Health Maintenance", "Social History", "Family History", "Outstanding Orders", and "Visit Notes".
 - Right Panel:** A sidebar with a tree view showing different modules such as "Patient Summary", "Quick Notes", "Body System View", "Chart Search", "Clinical Research", "Data Normalization", "Discharge Summary", "Health Maintenance", "Medications", "Immunization Schedule", "Screening View and BPO", "Screening/Referral Tracking", "Screening/Referral Management", "Live Patient/Screen Summary", "MAM", "MAM Summary", "Medication Change", "Medication Manager", "Notes", "Observation Events", "Patient Information", "Transfer Screen Status Summary", and "Visit Summary".
- Bottom Panel:** A large area displaying a chest X-ray image of the patient's lungs. The image is labeled "Chest X-ray" and "Chest X-ray (AP)".
