Monopolar Devices

DS3.0 is a monopolar device that employs radio-frequency (RF) energy and is used for tissue sealing and coagulation. It is a Class II medical device.

- 1. Indications for Use: For use on soft tissue.
- 2. Contraindications: Do not use on metal or conductive surfaces.
- 3. Precautions: Use appropriate safety precautions.
- 4. Warnings: Do not use on dry tissue.
- 5. Instructions for Use: Follow the instructions for use.
- 6. Maintenance: Clean and inspect the device.
- 7. Storage: Store in a dry, clean environment.
- 8. Disposal: Dispose of the device according to local regulations.
