Percutaneous Vascular
Surgical System

10F

Pericarditis (Heart Surgical System): Pericarditis is the inflammation of the pericardium, the sac-like covering of the heart. Pericarditis can be caused by a variety of factors, including infection, autoimmune disease, and trauma. Symptoms include chest pain, shortness of breath, and a pericardial friction rub. Treatment includes anti-inflammatory medications and, in some cases, pericardiectomy.
